# Bitcoin mining on FPGA

some description

Master thesis

*Supervisor:*    Thomas Hollstein
Professor at the Department of Computer Engineering / Ph.D.

Tallinn 2013

## Author's Declaration

This work is composed by myself independently. All other authors' works, essential states from literary sources and facts from other origins, which were used during the composition of this work, are referenced.

Signature of candidate:                    Date:

# Annotation

Current work introduces conceptual approaches for implementing a user interface for bitcoin mining on FPGA. It is also described about ASIC here.
